March 29, 2004

Eric Neeb,

Just wanted to drop you a note. I cannot express my gratitude for all the effort you have provided. I would have been more than satisfied with the purchase regarding price, timely delivery, professionalism, etc., but your real concern for my safety continues to amaze me. Not only did you investigate my flying ability and gave me access to continued training regarding my 206t, but you personally gave (and continue to do so) many hours of flying and avionics instruction. Your potential customers need to be aware of your package. You have saved me time and money. Yet more importantly, my family and I thank you for the added safety we now possess. I am sure this is a rarity in the aviation business.

My sincere appreciation,

Jesse F. O'Dorisio
